Footwear and Last Recommendations for Common Foot Problems

Common Foot Problems

Bunions: Bunions require footwear with a wide and deep toe box to accommodate the affected joint. Drew® brand footwear has added depth or double added depth, large forefoot capacity and soft yielding uppers. lasts that work well for bunions include women's lasts 88, 381, 46 and men's lasts 66 and 466.

Ankle Valgus: Ankle roll in requires strong shoes with wedges or flares that reduce pain in the lower legs and ankles. Drew brand footwear, with its supportive heel counter, wide shank area, rigid heel tuck, and flared outsoles are ideal for Ankle Valgus. This footwear offers complete rearfoot control, thus helping balance and align the foot.

Heel Pain: Heel pain – especially when standing – is helped by customized cushion inserts and added depth footwear. Heel pain is usually caused as a result of Plantar Fasciitis. Drew footwear with prescribed orthotics works well for this condition.

Calluses: Accommodative inserts to reduce pressure will allow most calluses to lessen and sometimes disappear. Drew brand footwear, constructed with moldable, cushion inserts are accommodative to this condition.

Pes Planus: Correctly designed shoes will make the low-arched foot more comfortable. Depending on mobility, women's lasts 46, 88 and men's last 66 work well for the rigid foot, while last 18 works well for the flexible flat foot.

Pes Cavus: A high arched foot requires therapeutic footwear. A long medial counter provides support and stability. Drew's 18 last accommodates a high-arched foot well, although other Drew lasts with modified inserts or orthotics are also beneficial for this problem.

Plantar Fasciitis: Pain in the arch area is a symptom of Plantar Fasciitis, which can be managed by customized orthotics and proper footwear. All Drew brand footwear can accommodate prescribed orthotics, which help relieve the pain of Plantar Fasciitis.

Ankle Varus: Ankle roll out requires strong footwear with wedges or flares that reduce pain in the lower legs and ankles. Drew footwear with its supportive counter, wide shank areas, rigid heel tuck, and flared outsoles are ideal for Ankle Varus. This footwear offers complete rearfoot control, thus helping balance and align the foot.

Hammertoes: Shoes with wide toe boxes and metatarsal lifts help the pain of hammertoes. Drew brand footwear with high toe boxes, removable cushion inserts, and soft leather uppers benefit this condition. Look for women's lasts 88, 46 and 381 and men's lasts 66 and 466.

Last Recommendations For Foot Problems

Women's

Pedic 381 – See Page 15

- Deep oblique toe shape provides more forefoot capacity.
- 8/8 heel height

Pedic 46 – See Page 14

- Wide shank area provides superior lateral stability and also makes this last extremely versatile for orthotic applications
- Deep, broad, oblique, forepart offers maximum capacity
- 6/8 heel height offers excellent balance and weight distribution

Pedic 18 – See Page 13

- Snug fitting level heel seat
- Sculpted high arch
- Short back last

Pedic 200 – See Pages 4-5

- Snug fitting heel seat
- Short back last
- Excellent for applications to treat minor foot conditions
- 6/8 heel height

Pedic 88 – See Page 17

- A universal last used in many applications for extreme foot conditions
- Deep, broad, oblique, forepart offers more capacity than any of our other women's lasts
- Wide shank area provides superior lateral stability – extremely versatile for orthotic applications
- 8/8 heel height

Pedic 246 – See Pages 16-17

- Snug fitting heel with displacement in cuboid
- Wide shank area provides excellent lateral stability
- Excellent last to accommodate prescribed orthotics
- 8/8 heel height
- Additional overall capacity

Pedic 16 – See Pages 10-12

- Added Depth combined with broad forepart
- Wide shank area for superior lateral stability
- Excellent for application to treat minor foot conditions
- 6/8 heel height

Pedic 48 – See Page 17

- A universal last used in many applications for extreme foot conditions
- Deep, broad, oblique forepart offers maximum capacity
- Short back last
- 8/8 heel height

Men's

Pedic 66 – See Pages 24-26

- Snug fitting heel with extra displacement in cuboid
- Wide shank area provides excellent lateral stability
- Excellent last to accommodate prescribed orthotics
- 6/8 heel height
- Additional overall capacity

Pedic 466 – See Pages 20, 27

- Snug fitting heel with displacement in cuboid
- Wide shank area provides excellent lateral stability
- Excellent last to accommodate prescribed orthotics
- 6/8 heel height
- Additional overall capacity

Boa® Lacing System

The on-the-fly Boa® lacing system is an adjustable reel on the back of the shoe that controls ultra-thin strands of strategically placed, airplane-grade steel wires. A quick twist of the reel tightens the tiny strands and provides a unique fit that is unattainable in other comfort footwear. A simple pull on the reel releases the laces. It's the only therapeutic footwear offering the Boa® technology.

Point-of-Purchase Materials

A. Drew Signage

This attractive 17"x11" sign helps you distinguish the area of your store you've established for the Drew line. Double-sided cling material.

B. Slat Wall Signage

Drew offers a complete 36"x32" plexiglas display unit for slat wall with eight shelves, a 4-brochure holder with informative brochures, and a Shoe Selection Wheel.

C. Shoe Selection Wheel

One of the most exciting tools we're offering retailers. Placed close to your Drew displays, this wheel can be used by customers to determine the best footwear for their foot problems.

D. Plexiglas Signage

Six new informational signs for table top or slat wall display from Drew. 8½"x11" vertical.

E. Brannock® Device

Proprietary from Drew. One Brannock® device fits both men and women.

F. Informational Brochures

The Drew Comfort Series is a great way to present your customers with important information about foot conditions and footwear. Also available in Spanish.

G. Footwear Selection Chart

Back by popular demand, the Footwear Selection Chart is an excellent guide to Drew's most popular styles. Color coded, this chart clearly designates which shoes are acceptable, good, and best choices for each type of foot problem.
